## 1.5 Goal Model

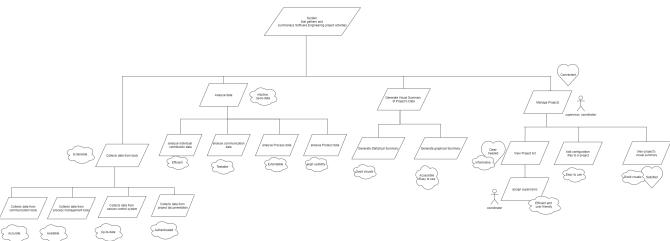

## 1.5.1 Do/be/feel list

In Sprint 2, we have revised our motivational model according to some feedback from our supervisor Bach Le

## Revisions

- The branches for Managing Coordinator and Supervisor projects were integrated into one as they were deemed to be similar functions (only differentiated by the Coordinator being able to assign supervisors to projects).
- Removed "feel" hearts from branches without any user role (automated back-end functions)
- · Cleaned up and compressed formatting
